Subject: Dewey Burdock Press Release

UICers: attached is one of several outreach pieces that we will be using in formally announcing issuance of our draft UIC permits and proposed aquifer exemption this Monday, March 6th for the Dewey Burdock uranium ISR project.

While this is an FYI, I just want to remind everyone that should you receive any communications from outside EPA about this project during the public comment period that runs until May 19, 2017, please immediately direct those to either Valois or myself.

As Valois will be developing a public webinar on this effort, I expect we will be able to have her informally brief folks within the Region on these proposed actions some time over the next several weeks.

Thanks!

Douglas
